

"We always use Qube for Asbestos & Legionella Compliance service as they provide a cost effective, prompt and reliable service. Their reports and risk assessments are comprehensive and easy to understand. Qube also provide additional advice and support which makes a difference. I highly recommend them".

G. O'Riordan. SIMARCO

Service:

Legionella Risk Assessment & On Going Monitoring

Project:

Ensuring compliance with ACoP L8 and HSWA

Company profile:

Worldwide Logistics, Air/Sea Freight Forwarding, Road Haulage & Distribution, Warehousing & Storage.

People:

Employees, visitors and public at risk to exposure from Legionella bacteria if not managed effectively.

Business situation

This business is committed to managing their Legionella control responsibilities and provides a safe working environment for both its employees and site visitors who can be long distance drivers making use of the sites shower and rest room facilities.

Solution

The contract was secured in 2014 following the client's selection programme. Works commenced with immediate effect starting a site survey and inspection to complete the Legionella risk assessment. A scheme of Legionella control was put in place based on the risk assessment which included tank cleaning, changing some outlets to mains supply and monthly site visits from Qube to carry out monitoring tasks, shower head descales and TMV servicing,

Benefits

By working closely with the facilities team were able to provide staff training to ensure some monitoring tasks could be safely carried out in house and therefore providing cost effective Legionella Control to the site.

Our services include:

Asbestos Surveys.

Legionella Awareness & Management Training

Legionella Testing & Monitoring.

Asbestos Management Reviews.

Legionella Risk Assessment.

Hot and cold water monitoring and inspection.
