

"We are a busy property maintenance company based in Staffordshire and servicing the Midlands area, our clients include Repair Networks and Insurance companies, we complete Fire, Flood and Impact repairs for clients. It is imperative to our business that we have continuity whenever possible; it is not in our interests or our customers to stop works or even withdraw manpower when we find the possibility of asbestos present. I was introduced to Qube in 2013, I was looking for a Responsive, Professional, Knowledgeable and competitively priced company to carry out asbestos testing. Qube have never let me down their response to both attending site and producing the results are unequalled in my experience, this together with their knowledge and pricing makes Qube an "ideal" service provider for my company, I do not recommend either people or companies on a whim but would not hesitate to recommend Qube."

Andy Orme – Elite Maintenance

Service:

Asbestos Refurbishment Surveys & Stand Alone Samples

Project:

Ongoing Targeted Asbestos Refurbishment Surveys and Stand Alone Samples.

Company profile:

Elite are an Award winning multi-trade insurance repair Contractor and Property Maintenance Company based in Staffordshire.

They work with insurance companies, house builders, landlords and private home owners throughout England.

People:

We are generally working in occupied properties, home owners could be at risk to asbestos exposure if not managed effectively.

Business situation

The management team at Elite was looking for cost effective and efficient Asbestos Surveying and Sampling services to support their contractors and health and safety obligations.

Solution

Since 2013 Qube has been working with Elite Maintenance to undertake asbestos surveys & stand-alone sampling in domestic properties insured by major insurance companies throughout the East & West Midlands.

Due to the time bound nature of this work, Qube provided a dedicated telephone line for these calls. Qube works to tight deadlines to ensure minimal delays to the programme of works, attending site within 24-48 hrs where access is available.

Benefits

The use of the Qube's services ensures that Elite's clients are not affected by lengthy delays waiting for Asbestos Survey and Sample results as we are usually able to provide results within 48hrs of site visit.. This helps Elite to provide a fully efficient and professional service to their clients. It is also important to state that our reports and sample certificates provide Elite with the ability to acquire independent quotes from Asbestos removal contractor as we are not removal contractors but do provide all the information needed to price a job.

Our services include:

Asbestos Surveys.

UKATA Asbestos Awareness Training.

Legionella Testing & Monitoring.

Asbestos Management Reviews.

Legionella Risk Assessment.

Hot and cold water monitoring and inspection.
